

# BUILD-IT

December 19, 2022

Dear Sir/Madam,

Greetings from Building University-Industry Learning and Development through Innovation and Technology (BUILD-IT) Alliance Project and Industrial University of Ho Chi Minh City (IUH)!

BUILD-IT and IUH are very excited to present our [ABET Forum: ABET Accreditation Value and Success Showcase](#). The forum brings together a national audience focused on implementing best practices for international recognition, e.g., ABET accreditation. This forum provides an introduction to a structured approach and key factors leading to successful ABET program accreditation. Increased capacity development of participants via keynote address and panel sessions highlighting Vietnamese successes in obtaining ABET accreditation. Proven models and key success factors will be highlighted, all within the Vietnamese context. The afternoon workshop provides guided exploration of necessary steps towards successful international recognition of programs.

BUILD-IT has been helping the Vietnamese model universities implement robust quality systems to attain international recognition. The tools and techniques BUILD-IT teaches for accreditation and assessment have become part of the institutional process and contribute to the sustainability of quality education in the long-term – increasing the breadth of programs seeking and achieving international accreditation and recognition beyond the targeted programs. Since the inception of BUILD-IT, a total of **105** partner programs have already achieved international/regional recognition, among which **12** programs were accredited by ABET.

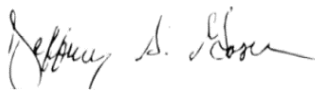

We would like to cordially invite you to participate in the forum on **Friday, January 6, 2023**.
